**Subject:** Face to face meeting on incident data

The Data Team would like to propose sending an envoy to DC next to week to discuss in person some of the lingering data issues for the response.

We would like to go over:

- really nail down process for review and public review of data
- discuss what HQ envisions the review and posting process to be as we shift out of response mode to more long term monitoring/cleanup type sampling
- long term repository and public access for the data

We could get a Data Team representative to DC for meetings on the 26th.

If you guys would be amenable to this please let us know.

Joe Schaefer
